

Parents,

This letter is to inform you of the updates made by DHEC and the CDC.

The **fourteen days** once you have tested positive for COVID has been changed. To return to school, you must wait **ten days** from the first sign of symptoms and **twenty-four hours** without any symptoms. If your child tests positive without any symptoms, he or she will have to be out for **fourteen days**. If your child has a case in his or her classroom, a notification letter will be sent home.

Thanks,

Jamee Barnes
